Pump Kit, replacement of hydraulic and pneumatic seals	⊘	✓

Additional parts or labor will be quoted and invoiced separately.

✓ included in the P/N
 ⊘ additionally invoiced

Our services in detail:

- Labor, travel and expenses are included
- Complete system inspection: control for damage, missing parts, cleanliness, proper support and installation, hydraulic- and electrical connection integrity
- Draining and cleaning of the melter reservoir; replacement of reservoir filter and purging the system to help remove adhesive char and debris
- Function check of each applicator and nozzle, plus checking temperature settings.
- Replacement of all filters in dispensing applicators
- Pump Kit, replacement of hydraulic and pneumatic seals (Plus plan only, every 1-2 years, depending on the operating time)
- You receive a service report for your records and for ISO compliance.
