

Encore[®] Cup Gun Kit

Fast, quick connect, color change system for small-scale, manual powder coating applications

Production Level Performance: Ability to conduct small-scale tests and coat small profile parts, as it delivers the same superior results as a standard Encore System with a hopper or vibratory box feeder.

Compact, All-in-One System: The kit combines all of the components essential to adapt into an Encore manual spray gun for a performance quality finish Encore products consistently delivers.

Easy and Flexible Color Changes: Through-the-handle purge cleaning for a fast, clean and easy powder changeover.

The easy-to-use, quick color change, cup gun kit is designed to change colors quickly and efficiently during small-scale manual applications for production or testing purposes.

- The cup gun kit consists of components which allow powder to be sprayed without the use of a hopper or vibratory box feeder.
- Encore Inline Pump
- (1)14-ounce capacity cup
- Optional Items Include
 - Encore Manual Powder Spray Gun
 - Additional cups with lids

Why choose Nordson

In highly competitive manufacturing markets, productivity is vital and performance is essential. That's why we apply both to everything we do, whether it's our products, expertise or outstanding customer service. We'll always be there to help maintain the new standards you've set, with expert service and support delivered through our teams working across the globe.

This unique Nordson approach helps you reach new levels of production, while working more accurately, efficiently and competitively than ever. Precisely why manufacturers who demand quality, can rely on Nordson.
